

who knew her. She was always involved in her community and concerned for the welfare of her friends and family. Along the way, Sheri was diagnosed with thyroid cancer. She beat it. Then she was diagnosed with breast cancer. The doctors gave her about a year to live. She wanted to make it to August 20, 2005, to see her daughter graduate from college. While she did pass that date, she will never see Katie married or play with her grandchildren. She did, however, leave a legacy that we have a responsibility to uphold. Sheri is just one of many unrecognized radiation-exposure victims; her story is poignant, but it is echoed throughout her community by many other families who have survived or lost cancer battles over the last 50 years. Sheri played a large role in bringing the plight of many of her friends and family to the attention of Idaho's congressional delegation and general public last year. Sheri is survived by her mother Millie and her daughter Katie Klein.

On May 11, 2005, I came to this Chamber and introduced legislation to amend the Radiation Exposure Compensation Act. My legislation would make Idaho citizens, such as Sheri, who were exposed to fallout from nuclear testing in Nevada, eligible for compensation under the act.

In my introductory statement, I related stories of Idahoans who recounted going outside in the evenings to look at the beautiful sunsets caused by the testing. Unfortunately, and unbeknownst to them, these skies were filled with dangerous radiation that elevated their exposure and subsequent risk of developing cancer. I also stated that now is the time to amend the act to make it work for everyone who may have become ill because of radiation fallout exposure.

Let us not let Sheri's death go unanswered. Join me in supporting S. 998 to amend the Radiation Exposure Compensation Act so that others who are suffering as Sheri did are given their just compensation and treatment; it is the right thing to do.●
